

Steel Frog.

FABRICATION EXCELLENCE

Steel Frog Fabrication is a precision metalwork production company that utilizes over 30 years of experience combined with the latest technology and methods in laser cutting, CNC press, and welding services, with an emphasis on consistent quality service.

- 1 EFFICIENT SCALING**
- 2 COMPLETE PROCESS CONTROL**
- 3 PROUD UK MANUFACTURER**

CUT IT

Expert laser cutting services, accepting PNG, DXF, DWG files; cutting and folding various metals with precise, technologically advanced equipment.

FOLD IT

Specializing in precision sheet metal fabrication with 30+ years' experience, integrating state-of-the-art CNC and Fusion360 for superior accuracy and efficiency.

WELD IT

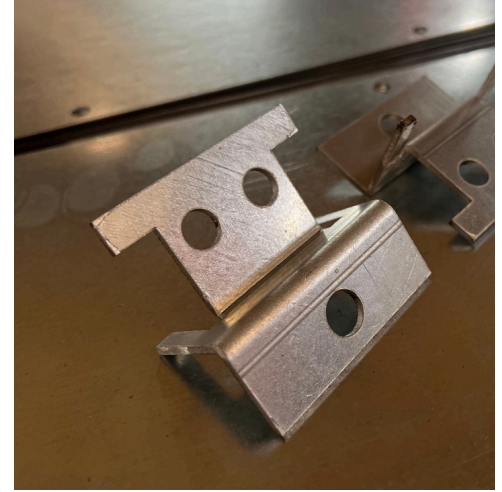

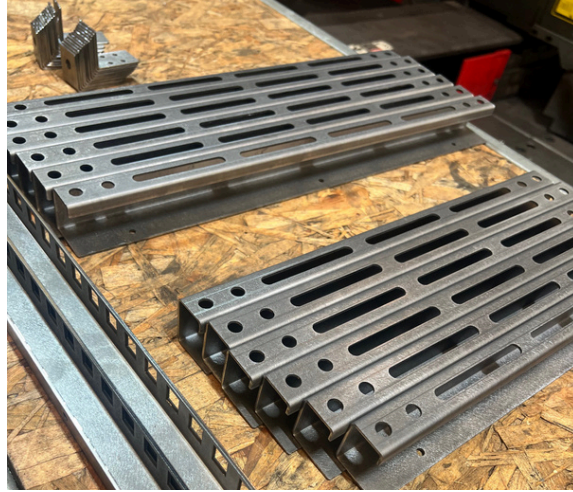

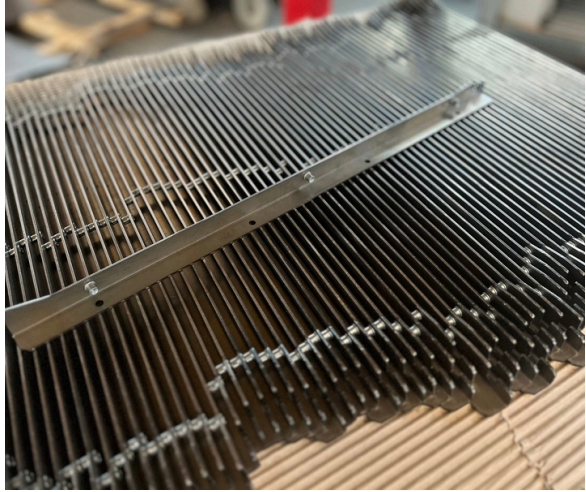

We excel in spot, stud, TIG, and MIG welding for all steel grades, stainless steel, and titanium, using the latest JIG tables to ensure consistent quality in parts and assemblies.

BEYOND FABRICATION

PRESS WORK

Steel Frog can mass produce parts and full assemblies, making sure every piece works together perfectly.

ASSEMBLE & CHECK

Expert assembly services tailored to your needs, using state-of-the-art techniques to construct, test, and deliver ready-to-use products efficiently.

WELD & FINISH

Achieve the perfect finish with our comprehensive services including welding, painting, plating, and polishing to enhance your product's durability and appearance.
